

NEW FOR 2006...

12 Cubic Foot Stationary Mixer

Model WM120SHHDS

**Heavy-duty plaster/mortar mixer
designed for commercial job applications**

Construction Starts Here

12 cubic foot Stationary Mixer

- **12 Cubic Foot Capacity** heavy-duty mortar mixer designed for commercial job sites.
- **Hydraulic drive** enables mixing of stiff loads with no belt slippage.
- **Standard hydraulic dump and extra-wide dump lip** for easy transfer of material to wheelbarrows and pan.
- **Extra-thick 5/16" steel tub** resists wear and provides longer life especially when working with abrasive materials
- **Stationary design** means no wheel or tow bars to have to work around.
- **Stabilizer jacks** are retractable and height adjustable allowing the mixer to be placed in virtually any location.
- **Forklift pockets are standard** and provide safe, convenient lifting points when moving the mixer.
- **Heavy-duty, greaseable seals** are engineered to provide a long service life.
