**Rugged, glare-free light**

**Construction Starts Here**

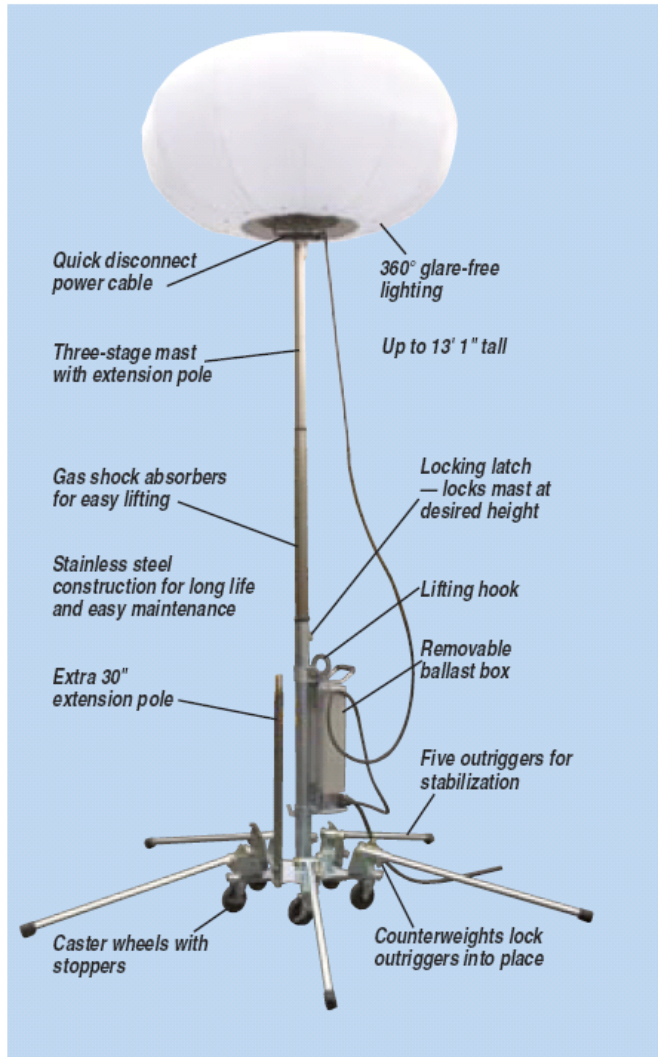

# GloBug Lighting System

## GloBug Solo

When space is limited but illumination is required, call on the Multiquip GloBug Solo GB-114BW

GlowBug Solo is easily transportable; protective canvas balloon cover is included as standard.

- **Metal Halide lamp** — single 1,000 watt lamp for maximum illumination. Pure white light — 3400° K.
- **360° glarefree illumination** with standard balloon (BAL120).
- **Stainless steel construction.**
- **Downward direct illumination** with reflector balloon.
- **Self-inflating balloons** are easy to install and inflate in less than 20 seconds.
- **Three-stage mast with extension pole** — extends up to 13' 1".
- **Caster wheels with stoppers** for easy maneuverability.
- **Five outriggers** for great stabilization.
- **Light coverage up to 150 feet.**

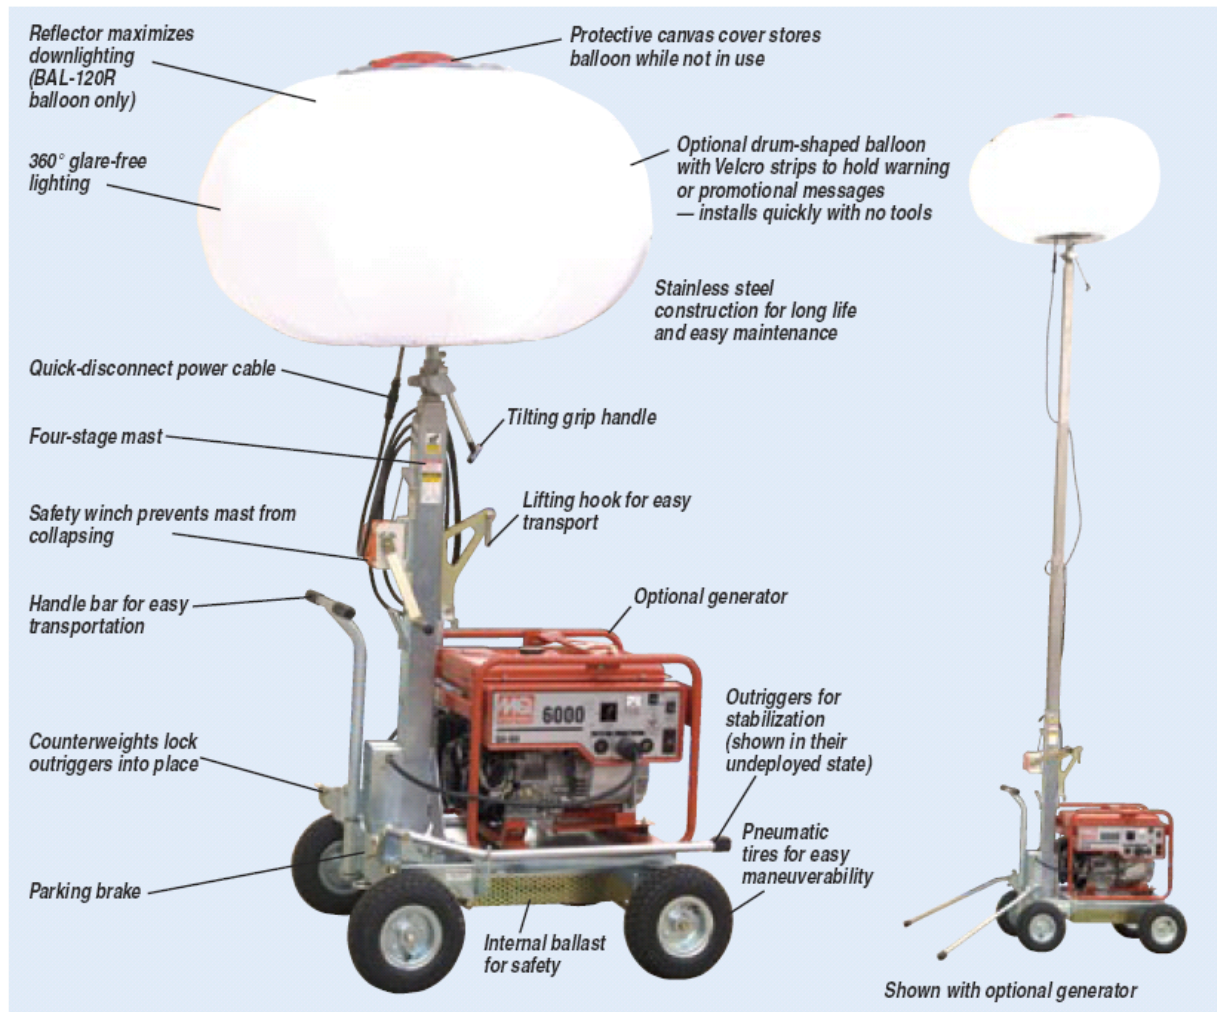

*Multiquip's GB-114BC GloBug Lighting System is designed to provide glare-free lighting for a wide range of applications.*

- Metal Halide lamp — one 1,000 watt lamp for maximum illumination.
- 360° glare-free illumination with standard balloon (BAL-120).

- Downward direct illumination with reflector balloon.
- Self-inflating balloons are easy to install and change; inflate in less than 20 seconds.
- Four-stage mast extends to 16.5 feet.
- Steerable cart.

**Use GloBug Solo on these and other applications:**

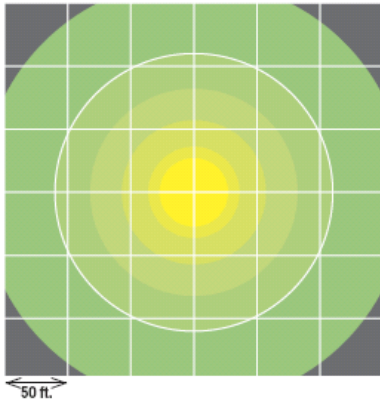

- |                        |                           |
|------------------------|---------------------------|
| ■ Road construction    | ■ Disaster relief         |
| ■ Search and rescue    | ■ Night parking           |
| ■ Special events       | ■ Emergency repairs       |
| ■ Parking lot lighting | ■ Landscaping             |
| ■ Parties              | ■ Farming and agriculture |
| ■ Maintenance          | ...and many more          |
| ■ Mining               |                           |
